REMOTE APP

Popsical comes with a mobile app for users to browse the library and queue tracks from your mobile device. Unlike conventional karaoke sets that rely on a single remote, Popsical supports multiple mobile devices at the same time for everyone to add songs to the play queue anytime.

EVER-GROWING
MUSIC LIBRARY

Traditional karaoke systems limit your song choices to the CDs available or songs stored locally. With Popsical, all you need is an internet connection to browse through the massive karaoke library that is constantly updated all day, everyday.

SMALL IN SIZE

The Popsical fits in the palm of your hand, making it small and compact. Unlike traditional karaoke systems that are bulky and expensive, Popsical does not take up much space. Don't be fooled by its size - The Popsical packs a punch while designed to look great on your TV console and delivers the ultimate karaoke experience!
